LETTER OF MEDICAL NECESSITY

Re: **HOWARD BREAREY**
Orthotic Device Need Assessment
Exam Date: **02/23/2025**
Height: **5'2**
Weight: **150**
DOB: **10/27/1939**

Mr BREAREY is inquiring about utilizing orthotic bracing for his/her current conditions. His/her chief complaint at the time of this assessment is: **Back**.

Mr BREAREY reports chronic **Back** pain for **A YEAR**. Patient states pain is **ACHY** with a pain scale of **7** and pain worsens with **WALKING, STANDING**. Pain is experienced **COMES AND GOES**. Previous treatments with heat, ice, medication and rest have been unsuccessful to control pain levels.

Diagnosis includes: **M54.50- Low back pain, unspecified**. Based on my conversation with **Mr BREAREY** and evaluation of his/her condition, I am ordering the following: **L0457 (TLSO, FLEXIBLE, PROVIDES TRUNK SUPPORT, THORACIC REGION, RIGID POSTERIOR PANEL AND SOFT ANTERIOR APRON, EXTENDS FROM THE SACROCOCCYGEAL JUNCTION AND TERMINATES JUST INFERIOR TO THE SCAPULAR SPINE, RESTRICTS GROSS TRUNK MOTION IN THE SAGITTAL PLANE, PRODUCES INTRACAVITARY PRESSURE TO REDUCE LOAD ON THE INTERVERTEBRAL DISKS, INCLUDES STRAPS AND CLOSURES, PREFABRICATED, OFF-THE-SHELF)**.

Patient is ambulatory and has weakness of the **Back** requiring stabilization for improvement of functionality. I am prescribing this **Back** orthosis for the following indication(s): to aid when the patient is **WALKING, STANDING**, to aid in stabilization of the **Back**. My treatment goal(s) for the use of the prescribed **Back** orthosis are: improvement in patient's function, improvement in patient's pain. The patient has been instructed to use the brace(s) daily, as needed.

Custom fitting of the orthosis is not required and the patient or an assisting caregiver can apply the prescribed orthotic device with minimal self-adjustment. **Mr BREAREY** has been provided a phone number to call if there are any additional comments or questions regarding this examination, and I have recommended that **Mr BREAREY** continue medical follow-up as part of an ongoing plan of care.

Re: **HOWARD BREAREY**..... DOB: **OCTOBER 27, 1939**

I, **KATHERINE SCHNEIDMILLER**, verify and confirm this order for the above-named patient, and certify that I have personally performed the assessment of the patient for the prescribed treatment and device and verify that it is reasonably and medically necessary, according to accepted standards of medical practice within the community, for this patient's medical condition.

Plan & Treatment Goals

Based on my evaluation of the patient's condition, I am ordering the following device(s) **L0457 (TLSO, FLEXIBLE, PROVIDES TRUNK SUPPORT, THORACIC REGION, RIGID POSTERIOR PANEL AND SOFT ANTERIOR APRON, EXTENDS FROM THE SACROCOCCYGEAL JUNCTION AND TERMINATES JUST INFERIOR TO THE SCAPULAR SPINE, RESTRICTS GROSS TRUNK MOTION IN THE SAGITTAL PLANE, PRODUCES INTRACAVITARY PRESSURE TO REDUCE LOAD ON THE INTERVERTEBRAL DISKS, INCLUDES STRAPS AND CLOSURES, PREFABRICATED, OFF-THE-SHELF)**, including fitting and adjustment if needed. The patient has been instructed to wear the device daily, as needed. The benefits of this device, which is an alternative, non-invasive method to potentially relieve pain, has been explained to the patient who is interested in this treatment. Based on my assessment, I have determined it is medically necessary and appropriate to prescribe treatment today. For the patient's complaint, I am prescribing this device. The patient will benefit by helping her address any of the following: give support to weak muscles, improve patient's pain, improve patient's function, increase performance in activities of daily living, improve ambulation, reduce resting, slow degeneration, provide stability, provide support. Reduce pain by restricting the mobility of the trunk; reduce the risk of medical problems escalating the patient's present condition, facilitate healing following an arthritis or surgical procedure to the spine or related soft tissues; To support weak spinal muscles and/or a deformed spine. If the patient's pain persists or worsens and/or there is an acute trauma or arthritis related to this pain, the patient agrees and understands to go to the Emergency Room or follow-up with their Primary Care Physician for further testing and imaging that may be immediately necessary.
